They need warmth, oxygen at fairly high pressures, and free water. It isn't here now, but it can be created by properly designed plants. They engineered these plants to be triggered by the first signs of free water and to start building places for them to live while they waited for full summer to come. When it does, this whole planet will bloom. Then we can step outside without wearing suits or carrying airberries.". "No, I am not saying that SP3 could be modified from a robot craft to carry a human crew. The design could not feasibly be modified at this late stage. Too many things would have to be thought out again from the beginning, and such a task would require decades. And yet, nothing comparable to SP3 is anywhere near as advanced a stage of design at the present time, let alone near being constructed. The opportunity is unique and cannot, surely, be allowed to pass by. But at the same time we cannot afford the delay that would be needed to take advantage of that opportunity. Is there a solution to this dilemma?" He looked around as if inviting responses. None came.. "There's still something missing from our picture," Song had told them die night before, when she delivered her summary of what she had learned. "Marry hasn't been able to find a mechanism that would permit these things to grow by ingesting sand and rock and turning it into plasticlike materials. So we assume there is a reservoir of something like crude oil down there, maybe frozen in with the water.". "No. In fact, I think I've still got one left. Would you like it?".
